

1-9 INSTALLATION PROCEDURE

1-9-1 Installation Flow

Note

All on-site construction must be completed before equipment is delivered and installation starts. Attempting to install the system while construction is being completed will impact installation efficiency and further delay site completion. Making sure that all preinstallation and construction work is completed before equipment is delivered will usually result in an earlier turnover date.

The flow chart on the next page should be followed for an orderly and efficient installation of the Signa EXCITE HD 3.0T system. Note that many procedures may be performed in parallel and may be performed in any order according to the specific situation of each site.

Note

The flow chart references the Tab number and/or Section number for the respective installation procedures. These procedures are similar to cable maps in that they are to be removed from this binder and used at the location where hardware installation is being performed. The Procedures must be returned to the binder for future reference upon completion of the installation.

This installation flowchart has been developed assuming that all Signa EXCITE HD 3.0T equipment has been delivered together. Make sure that every part required is available before starting.

1-9-2 Installation Flowchart Explanation

Shown below are three examples of the flow chart Installation Procedures and an explanation of the areas within the procedures.

Use the correct Magnet Manual that applies to the System being installed to locate the installation procedure listed below

Section within manual to be completed.

Tab within this manual where the Section listed below is located

Section within the Tab where the Installation Procedure is located

LEGEND FOR FOLLOWING INSTALLATION FLOWCHART

1-10 INSTALLATION FLOWCHART

1-10-1 PREREQUISITES FOR SYSTEM INSTALLATION

Site Installations Required Prior to System Mechanical Installation

1-10-2 SYSTEM MECHANICAL INSTALLATION

Procedures to be Completed by Mechanical Installers

1-10-2 SYSTEM MECHANICAL INSTALLATION (Continued)

Procedures to be Completed by Mechanical Installers

1-10-2 SYSTEM MECHANICAL INSTALLATION (Continued)

Procedures to be Completed by Mechanical Installers

1-10-2 SYSTEM MECHANICAL INSTALLATION (Continued)

Procedures to be Completed by FE and Applications
