

3–7 COMPACT POWER DISTRIBUTION UNIT (NON–REGULATED)

PD1

COMPACT POWER DISTRIBUTION UNIT
(NON–REGULATED)

46–317099P12

Description

The Compact Power Distribution Unit (PDU) serves as the primary interface to facility power. It converts the 3 ϕ input line to either 208VAC (3 ϕ) or 120VAC (1 ϕ) as required by each subsystem cabinet. It also provides protection against high voltage spikes and high frequency noise. The Non–Regulated Compact PDU (P12) does **not** provide protection against powerline surges and sags or active powerline regulation. The Compact PDU does **not** provide powerline distortion or frequency shift protection.
