

Sheet Notes:

- 1 Customer Furnished
- 2 The Modem and cable Run 940 supplied in Global Modem Kit. Not used when connectivity is via the internet.
- 3 Optional: May not be present on all systems
- 4 Direct connection to laptop requires cross-over type network cable.
- 5 If the network drop and wall jack is not available in the equipment room then connect Run 942 to LAN HUB Port 7.
- 6 For Twin Coil systems the power source for the Magmon is from the GE MDP. For non-Twin Coil systems the power source for the Magmon is from a customer supplied (7 x 24) wall outlet.
