### Body SNR

**Acceptance Specifications:** SNR 1.0T 39-53, SNR 1.5T 74-79

| Coil Type | Plane | R1/R2/TG | Center Frequency | Signal | Noise | SNR Value | Pass or Fail                                                |
|-----------|-------|----------|------------------|--------|-------|-----------|-------------------------------------------------------------|
|           |       |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |       |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |       |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |

### Head SNR

**Acceptance Specifications:** SNR 1.0T 18, SNR 1.5T 29.1, SNR 3T 21.8 Signal: 1.0T 1000-14000, 1.5T 1050-1180

| Coil Type | Plane | R1/R2/TG | Center Frequency | Signal | Noise | SNR Value | Pass or Fail                                                |
|-----------|-------|----------|------------------|--------|-------|-----------|-------------------------------------------------------------|
|           |       |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |       |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |       |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |

### Other Coils SNR

Calculate SNR Value by using DAQA TOOL or Image Quality Inigma; Older systems use [Display CV \(saveinter\)](#) to check multi-channels.

| Coil Type | Serial # | Part Number | R1/R2/TG | Center Frequency | Signal | Noise | SNR Value | Pass Spec & Channels Check?                                 |
|-----------|----------|-------------|----------|------------------|--------|-------|-----------|-------------------------------------------------------------|
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|           |          |             |          |                  |        |       |           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |

NOTES
