Communique Number

MQUE-59VKHB

[Revision #CH-78A8 of **Hardware and Electrical Repair Kits Available by Christopher C Hardiman**]

Equipment

LightSpeed Plus, LightSpeed Ultra

Problem

Field is unable to obtain various hardware (screws, nuts, bolts, etc.) and electrical pieces (fuses, relays, relay clips, etc.) as they are not listed as orderable FRUs for the Plus and Ultra Systems.

Corrective Action

A Hardware Kit and an Electrical Kit has been created and is now available for the field to order. 2280874 is the part number for the electrical kit and 2280873 is the part number for the hardware kit. Kit contents are shown in the below attachment. Ordering and having these kits on hand could prove helpful in lowering downtime and time-to-repair. Hardware Kit, 2280873, updated to revision 2. Kit now includes metal-less cradle latch and strike plate. Original contained metal version. This change occurred prior to the release of the kits.

You can download any of the files below by dragging them to your Windows desktop.
To open a file for reading, double-click it.
